### SELF DEFENCE CLASS FOR WOMEN

Self defense class for women named FIERCE DIVA was conducted in association with Physical education on 05/03/2020 at 3 pm. self-defense helps women protect themselves and their family. In his opinion, this is the most important reason for women to learn self-defense, because it is the difference between life and death. While men are touted as the stronger sex, jujitsu is a small man's sport. Meaning, even though women are smaller and not as strong, this discipline helps women use their opponent's mechanics against them, such as their height, weight, and even strength. In a self-defense situation, this is pivotal. The majority of attackers are not going to be proficient in martial arts. This provides an edge to women when in a self-defense situation
