Overall rating of the program and various facilities in the college	0	7	9	0	0

Student Feedback 2023-2024

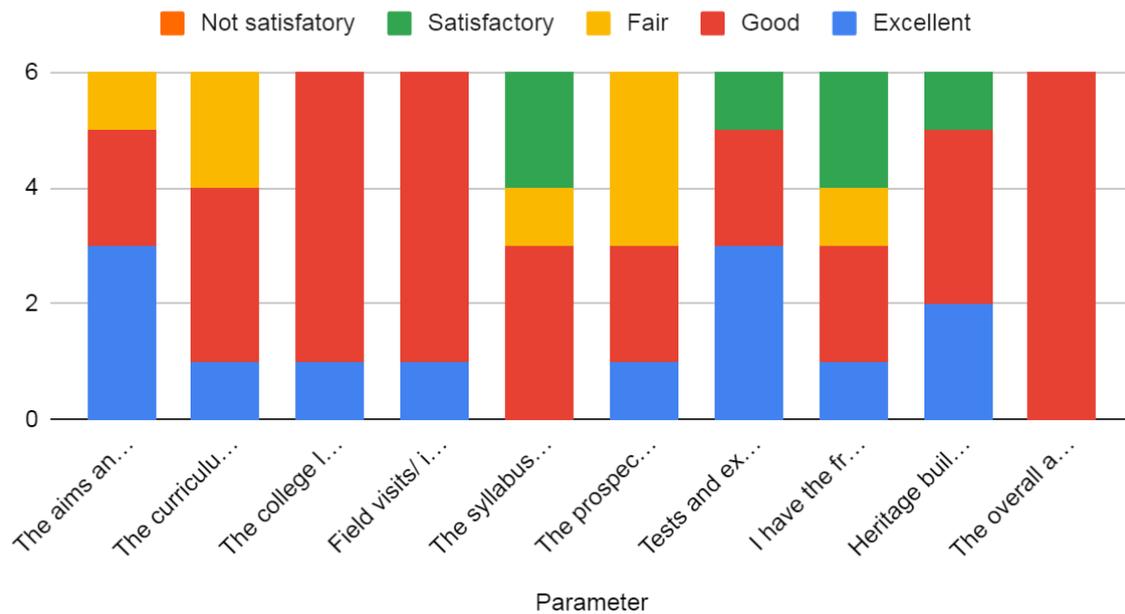

This report provides a comprehensive analysis of the survey data, highlighting both positive feedback and areas for improvement. A majority of students (7 agree) gave a favorable overall rating for the program and facilities, suggesting general satisfaction. The curriculum is perceived as largely relevant and well-balanced, particularly in terms of ethical values and internal evaluation fairness. There is a strong emphasis on assignments, seminars, and teacher guidance, which enhance academic performance. The majority of students believe the campus environment (classroom quality, eco-friendliness) positively impacts learning. While there is general satisfaction with the curriculum, some students feel that practical application (internships/field visits) could be enhanced. Balancing theory and application could be improved for a more hands-on experience. Greater alignment with professional/entrepreneurship needs could be emphasized to cater to students with specific career goals. Some students feel the co-curricular ambience and holistic development opportunities can be further developed. Strengthen practical learning experiences such as internships and field projects. Continue to ensure that teaching methods evolve to cater to both theory and application, perhaps through more real-world examples. Consider further expanding the holistic development aspects of the curriculum. Explore opportunities to increase focus on professional and entrepreneurial skills.

Teachers Feedback 2023-2024

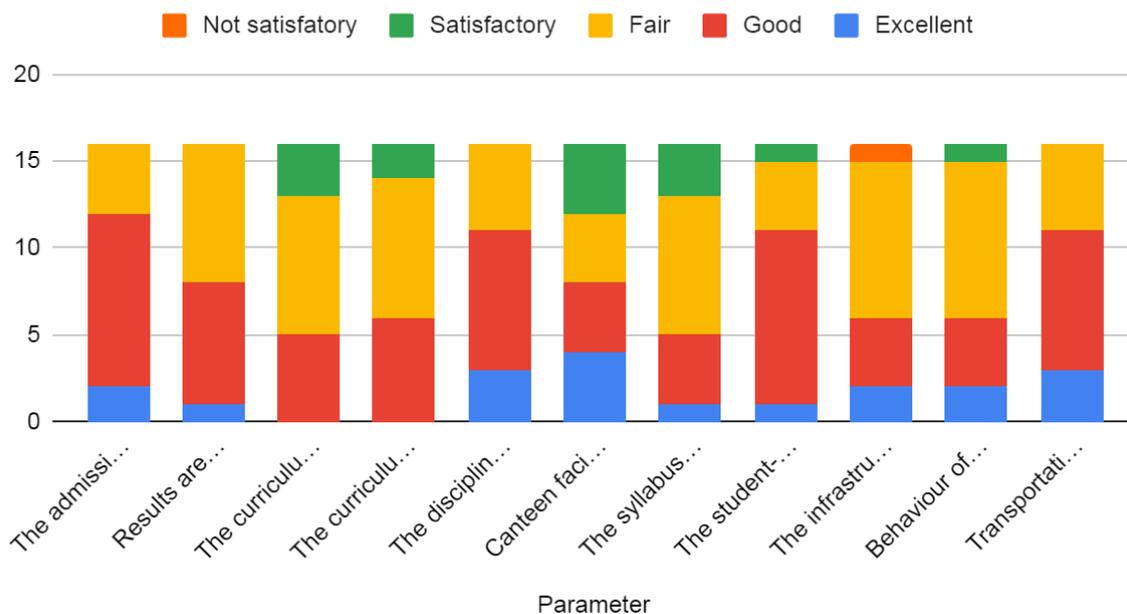

The feedback reflects an overall positive sentiment toward the college's academic environment, teaching processes, and campus atmosphere. However, strategic updates to the curriculum, expanded elective choices, and enhanced assessment freedom can further strengthen the teaching-learning experience. Regular reviews and teacher inputs will help sustain and build upon these strengths while addressing areas of concern.

STUDENT'S FEEDBACK

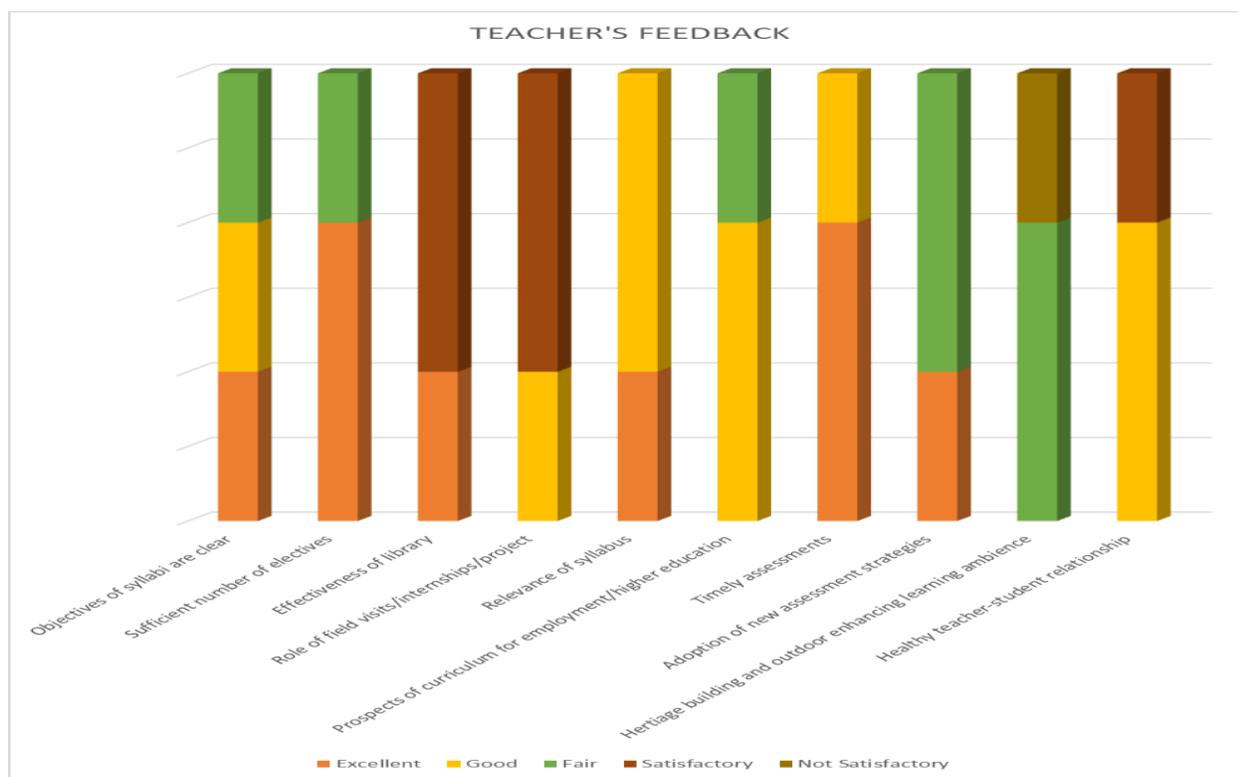

The student feedback highlights several positives about the educational program. Students appreciate the effective teaching methods and the guidance provided by teachers, which enhance their performance. The curriculum is viewed as relevant to objectives, with a good balance between theory and application, contributing to holistic development. The learning environment is positively noted for its healthy and tidy classrooms, as well as a supportive co-curricular ambience. Assignments and projects are seen as beneficial in helping students achieve course outcomes, showing that coursework aligns well with learning goals. Additionally, the overall program and facilities receive favorable ratings, indicating general student satisfaction.

TEACHER'S FEEDBACK 2023-24

	Parameters	Excellent	Good	Fair	Satisfactory	Not Satisfactory
1	The aims and objectives of the syllabi are well-defined and clear to teachers and students	1	1	1		
2	The curriculum includes sufficient number of elective papers	2		1		
3	The college library helps to bridge the gaps in teaching learning process	1			2	
4	Field visits/ internship/ project described in the syllabus enhance		1		2	

	practical knowledge					
5	The syllabus is in tune with the needs of the time	1	2			
6	The prospects of the curriculum for employment/higher education		2	1
